I. Parties

II. Facts

A. Applicant's current base rates and charges were approved by the Commission in Case No. PUD2023-000087 by its Order No. 748265 issued on March 27, 2025, based on a test year ending September 30, 2023. Applicant is not earning sufficient operating income to produce a fair and reasonable return on capital or a fair and reasonable return on the value of its plant, property and other assets dedicated to public utility service within the State of Oklahoma. Applicant must have increased rates and consequent additional revenues if Applicant is to continue to provide adequate and reliable electric service and earn a fair, just and reasonable rate of return on its investment.

B. On August 14, 2026, pursuant to OAC 165:70-3-7 of the Commission's Minimum Standard Filing Requirements, OG&E filed its Notice of Intent, advising the Commission of its intent to file an Application seeking Commission review of OG&E's rates, charges and tariffs for retail electric service within the State of Oklahoma.

C. OG&E brings this Application, based upon a test year ending June 30, 2026, to initiate proceedings to review the rates, charges, and tariffs of OG&E, and for the establishment of fair and reasonable rates and charges upon completion of the Commission's review. OG&E tenders with the filing of this Application its complete Application Package as required by OAC 165:70-3-1, and following the filing of the Application Package, the Company will provide the Public Utility Division with its Supplemental Package as required by OAC 165:70-5-20.

D. OG&E's primary purpose for seeking a change in rates is to recover the costs associated with increased capital investment the Company has undertaken since its last general rate case, an updated Return on Equity to reflect recent market conditions, updated depreciation rates and expense, and increased vegetation management expense. OG&E also seeks recovery of and regulatory treatment for other certain costs and other specific changes to its tariffs and riders.

III. Legal Authority.

The Commission has jurisdiction in these proceedings by virtue of Article IX, Sections 18 through 35 of the Constitution of the State of Oklahoma, the Oklahoma statutes, including 17 O.S. § 151 *et seq.*, 17 O.S. § 250 *et seq.*, and the Commission's rules.

IV. Relief Requested.

WHEREFORE, OG&E requests that the Commission issue an order authorizing Applicant to adjust its retail rates and charges and amend its tariffs and terms and conditions of service, as well as all other relief requested all as set forth in the testimony and exhibits filed by OG&E in this Case.

Respectfully submitted,

A. Chase Snodgrass, OBA No. 33275
